INTRODUCTION

I am pleased to present the second edition of American Radio - Summer 1987 Supplement. This book is designed to supplement the primary editions of American Radio by providing updated summaries of the 78 markets which Arbitron and Birch survey on a quarterly basis.

The "Summer Supplement" is issued every November.

Your support of my work is sincerely appreciated. Please feel free to make comments or suggestions at any time. I urge you to do so. I can be reached at this address:

1987 PUBLICATIONS FROM JIM DUNCAN

AMERICAN RADIO

Now a quarterly (with one supplement) AMERICAN RADIO remains the radio industry's most complete and timely sourcebook of radio ratings and programming information. There are over 30 tables and rankings for each market plus - in the Spring and Fall editions - over 60 pages of national rankings. AMERICAN RADIO is considered to be the "bible" of the radio industry and is required reading for anyone involved with radio.

Issue	Release Date	Number of Markets	Price

AMERICAN RADIO - 10 YEAR ANNIVERSARY ISSUE

This very special issue was published in early 1987. Subtitled "A Prose and Statistical History (1976 to 1986)" it provides a history of each rated market covering the last decade. Included are station ratings for each year, station sales since 1970, format and call letter changes covering the last decade and much, much more. The prose portion is a series of articles written by 50 knowledgeable and talented radio people. These articles provide a history of radio covering the decade. This is the finest publication we have ever produced. You will find it helpful, valuable, and interesting.

I strongly urge all of you (particularly new subscribers) to carefully read the definitions pages at the beginning of Section B. This will help you to understand all of the information given in the individual Market Reports. However, if you have any questions, please feel free to call me. I figure that my time and my call back to you are part of the subscription price. Also, I always enjoy talking about American Radio.

Every effort has been made to make this book as accurate as is humanly possible. However, we are responsible for errors only to the extent that subscribers will be notified if such action is justified.

Any corrections made by Arbitron to earlier published reports are included if they are received by February 12, 1988.

Work on this edition was completed on February 13, 1988. Mailing will begin on February 19, 1988. Working on such tight deadlines may cause production problems. If your copy is defective in any way, let me know and I will promptly mail another copy to you.

HIGHLIGHTS AND COMMENTS

FM SHARE

FM's share of audience showed the smallest annual increase since I began keeping records in 1975. The national FM share is now 70.605% up from 69.655% in the Fall of 1986. This represents a 1.367% increase in the last year. It is also interesting to note that the FM share actually declined between the Spring and Fall 1987 rating periods. In the Spring, the FM share was 71.835%. Of course there are 50 fewer markets rated in the Fall, but perhaps this indicates that larger market AM's are slowing their decline. We will have to wait for a couple more major sweeps to know for certain.

Once again, Greenville-New Bern, NC (Coastal Carolina) had the highest FM share (94.12%) and Bakersfield the lowest (54.04%).

LISTENING LEVELS

Listening levels have slowly been declining since 1982 when they peaked with a mean APR of 17.32%. The Fall 1987 APR was 16.35% down from 16.48% in 1986. This decline concerns me a great deal.

LEADING STATIONS

WPAT AM/FM simulcasted during the Fall sweep and that enabled them to be the most-listened-to station in the U.S. Without the simulcast, WHTZ-F in New York would have been Number One. Stations in the top 100 making impressive increases include: KILS A/F, WOHT-F, WJR, KMOX, KLOS-F, WYNY-F, WADO, KLSX-F, KNIX A/F, WKSZ-F, WYTZ-F, WMZQ A/F, WRKO, WDAF, KMEL-F, WEGX-F, WCKG-F, KTWV-F, WZOU-F, KEGF-F.

GROUP OWNERS

METRO SHARE LEADERS AND MAJOR SHARE CHANGES

This table shows the 12+ Metro Share (6AM-MID, Mon-Sun) leaders for each rated market. Also listed are the stations in each market which had the largest gain in share or loss in share.

The period covered for the share changes is Fall '86 to Fall '87. It is my belief that year-to-year comparisons are more accurate and valid than "last book" comparisons.

**** Based on 12+ Metro, 1/4 HR AVG, Broadcast Week. Calculated by dividing listening to non-listed stations by total listening to all radio stations. A large part of the non-listed listening is probably to public and non-commercial stations. Other listening to distant stations (clears). Other listening will be to local commercial stations which do not qualify for listing in the rating book. The importance of this table (and the table above) is that this is listening that is not going to local commercial outlets. This affects CPM's and the effectiveness of local radio.

RADIO REPS AND THEIR LEADING STATIONS

This section attempts to rank the radio representatives by the ratings success of the stations they carry on their lists. For each time a rep firm had a leading station in a market it received one point. The number of stations/ reps listed in each market depended on the market size. For markets one through ten, up to seven stations/ reps were listed. In 100+ markets, only one or two stations/ reps were listed.

The first table shows the number of stations a rep firm services which are among the leading facilities in its market. The second table shows the number of stations which the rep services which clearly rank number one in the ratings of its market.

I realize the limitations of a ranking like this. It penalizes reps which have small lists. It also doesn't cover reps which have the majority of their stations in unrated markets. It also ignores some stations which are very strong and very profitable (especially true in larger markets).

What this list does accomplish is that it indicates which rep firms have, to use a bridge term, the longest and strongest lists.

NOTE 1: Figures across the top of Tables 1 and 2 are market rankings. The figure in parenthesis (on Table 1) is the maximum number of stations selected in that market size.

NOTE 2: Selections were generally based on 12+ Metro, 1/4 HR AVG, Broadcast Week. In a few cases TSA and Cume results were considered. In other cases combinations were considered. Some decisions were purely subjective on my part.

INDIVIDUAL STATION AUDIENCE BREAKDOWNS

In this section, the audience composition of almost 800 stations is examined. This total equals nearly 10% of all commercial radio stations in the United States. The following information is included for each station:

TIME SPENT LISTENING (TSL): This figure shows the amount of time which an average listener spends with a given station. The total is given in hours instead of 1/4 hours.

This figure is derived by the following calculation: Average 1/4 HR audience times 504 (the number of quarter hours in the Broadcast Week). The resulting figure is divided by the weekly Metro Cume. This figure is divided by four to come up with a figure in hours.

TURN OVER RATIO (T/O RATIO): This figure roughly indicates the number of groups of people which contribute to the station's average audience. It is calculated by taking the Metro Cume (12+, Broadcast Week) and dividing it by the Metro 1/4 HR AVG (Broadcast Week).

PER CENT EXCLUSIVE CUME (% EXCL): This fascinating figure indicates the loyalty of a station's audience. It is calculated by dividing the exclusive cume (12+ Metro, Broadcast Week) by the Metro Cume (12+, Broadcast Week).

PER CENT 12-24, 25-54, 55+: As of Spring 1987, we have changed the ages covered in this breakdown. You may recall that in previous editions, the cells were Teens, 18-34, 35-49, and 50+. The changes were made for two reasons. First of all the new Arbitron rating books make it easier to calculate this cells. Secondly, I think the new cells better reflect those which readers are most interested.

This figure is simply the percentage of a station's total audience (12+ Metro AQH, Broadcast Week), which lies in these demographic cells.

PER CENT MALE/FEMALE (%M, %F): The methodology is the same as that for 12-24, 25-54, etc.

Below are the means by format. Also included is the number of stations sampled.

SECTION B

INDIVIDUAL MARKET REPORTS

NOTE: Following these definitions pages the Individual Market Reports can be found in alphabetical order.

DEFINITIONS, CLARIFICATIONS AND EXPLANATIONS

NOTE: Even long-time subscribers should read these pages very carefully. There have been numerous changes and additions to American Radio. It will greatly increase your understanding of the Individual Market Reports if you are familiar with the systems and methodologies used.

The best way to explain an Individual Market Report is to go through it section by section. We will use an imaginary market and will start with the top of the market report on the far left.

Arbitron Rank/Pop (12+): 49/512,000
MSA Rank/Pop: 44/601,000
ADI #50
Average Person Rating: 18.4
Market TSL: 24.5 hours

The Arbitron rank is the 12+ population of the Arbitron metro survey area. The rank number (49 in this case) is the ranking among the 170 Arbitron Standard radio markets only. Markets without a full rating book are not included.

The MSA (Metropolitan Statistical Area) rank is shown along with the total estimated population. Where the market has been split into two or more MSA's all of the MSA's are listed.

The Arbitron ADI ranking can be found directly below the MSA rank.

The APR is the Average Person Rating. The APR indicates the percentage of the 12+ population which is using radio from 6 AM-Midnight, Mon-Sun (the Broadcast Week). The APR is roughly comparable to television's Persons Viewing Television (PVT) figures.

The market TSL shows the "Time Spent Listening" by the average radio listener in the market. In this case the average listener spends 24.5 hours listening to radio.

Stations: 27/20
Diaries: 701/730/53.5%
Sample Target: 647
Standard Error: .721
% Below Line: 3.3
% Not Listed: 8.6

There were 27 stations listed in the rating book for this market. Of those 27 a total of 20 stations were listed above the line (home to Arbitron metro). Thus a total of seven stations were licensed to cities outside of the metro but they still qualified for inclusion in the rating book. You should be aware that some stations now appear above the line by virtue of its chosen home city of identification rather than by its FCC authorized city of license.

The information on the "Diaries" line is a bit complex but it is all very important:

1st figure: 701 - the number of usable (in-tab) diaries returned from the market's metro
2nd figure: 730 - in the metro there was one diary returned for every 730 people 12+
3rd figure: 53.5% - total returned (in-tab) diaries expressed as a percentage of the total individuals who were sent a diary

The sample target shows the number of in-tab diaries designated for the metro. This is basically Arbitron's goal for returned diaries. Remember that this number represents total diaries and does not necessarily refer to any individual demo. It is not a percentage of total people contacted. It is a percentage of total people sent diaries.

The standard error is based on Arbitron's method of estimating the reliability of their ratings. I have carried the formula through the first step.

The % below line figure indicates the percentage of total radio listening earned by below the line stations.

This figure would reflect listening to distant stations, non-commercial and public stations, and local stations which did not have enough audience to qualify for listing in the book.

This figure along with the "% Below Line" figures indicate how much listening in the market is not available to the local commercial stations. This could have an affect on CPM's and also the effectiveness and saleability of local radio.

Est. 1987 Revenue: \$14,500,000
 HH Income: \$25,700
 Retail \$: 3.5 Bil
 Pop per Station: 25,600
 #1 Biller: WAAA \$2,000,000

The revenue estimates are based upon calculations made in the 1988 edition of Duncan's Radio Market Guide. The figures are gross and they do not include trades.

HH Income means Consumer Spendable Income per household. This market's estimate is \$25,700.

Total retail sales in this market is estimated at 3.5 billion dollars.

The data comes from Sales & Marketing Management and they are dated 1 October 1987.

The population per Station shows the number of people (12+) per metro area radio station. The figure is calculated by dividing 12+ metro population by the number of "above-the-line" stations.

The #1 Biller shows the station I believe is the leading biller in the market and its estimated 1987 gross revenue. This data is extracted from the 1988 edition of Duncan's Radio Market Guide.

All of the figures in this section are based upon the Broadcast Week (Mon-Sun, 6A-MID). The audience figures are in hundreds. The ratings and shares are always percentages.

Reading from left to right: WAAA has 30,100 listeners per quarter hour in the metro. This earns the station an 11.3% share of audience during the latest rating period. The share for the last four rating books follows (in some smaller markets the last two books are listed). The next column shows the average of the last four books. This figure is provided only for those markets with quarterly measurement. Next is the Birch share for those markets which Birch surveys. The Birch share is the latest quarterly report.

In the TSA (total survey area) WAAA-F has a total audience of 36,300 per quarter hour and a weekly cume audience of 490,800.

WBBB has the highest 12+ Metro cume audience with a weekly total of 431,400. WBBB's Metro cume rating is 21.2%. That means that 21.2% of this market's population (12+) listens to WBBB for five minutes or more during a given week. Historical cume ratings follow.

The number of stations listed on these tables varies according to market size and according to the number of stations in the market.

If a station is simulcasting, this symbol "+" will appear next to the call letters where applicable. Whether I labeled the simulcasting station as AM or FM depended upon which band received the greatest amount of listening.

12+ FM SHARE (METRO): 59.64% (833 of 1401) (FAL 86: 57.41%)

These figures show how well FM radio is doing in the market - at least as far as listening levels are concerned. To calculate these figures I simply added up the Mon-Sun, 6A-MID, quarter hour numbers of all listed stations and divided it into the total numbers for the FM stations. There is, of course, listening to stations which do not qualify for a listing in the Arbitron report for the market. However, by definition this amount is small and it should not significantly affect the percentages.

DEMOGRAPHIC AND DAYPART RANKINGS

Directly below the FM Share figures are 21 demo and daypart rankings. The number of stations listed depends upon the size of the market. I am not allowed to print actual ratings figures per my agreement with Arbitron. All of these rankings are based on 1/4 HR AVG.

The criteria for the rankings is as follows:

TEENS: Ages 12-17, Mon-Sun, 6A-MID, Metro
 18-34: Adults 18-34, Mon-Sun, 6A-MID, Metro

FORMATS	AM	FM	TOTAL	%
Country	153 (3)	176 (2)	329 (5)	13.9

This table is based on the broadcast week, 1/4 Hour Average, 12+ Metro. The table includes every format in the market and every station which shows up in the market's metro. In this market there are 15,300 people listening to 3 different AM stations programming country music. The FM figures are added to AM to show a total for the market. 13.9% of radio listening in this market is devoted to stations programming country music.

The "Other Rated Stations" section includes all stations not listed on the 12+ METRO 1/4/SHARE column at the top of the individual market report. The city of license, 12+ metro share and 12+ cume rating is listed as well as the station's frequency.

CAPSULE STATION DESCRIPTIONS

WAAA-F, 92.5, 50 KW @ 500, CHR ABC-C, \$73.00 (Torbet) XYZ Group Thomas Duncan

I have greatly expanded the number of stations in each market which qualify for a capsule description. Now nearly every station in the metro is included.

Our sample station, WAAA-F, has a frequency of 92.5. It's power is 50 KW and its Height Above Average Terrain (HAAT) is 500 feet. It is unfortunate but true that some stations attempt to deceive advertisers about their power and HAAT. I think I have found the true facilities data for these stations. However, a few may have slipped by me. If you see any incorrect figures, please let me know.

For AM stations night power is listed if it differs from day power. Directionality is indicated as follows:

DA, DAYS	- directional daytime
DA-1	- directional day and night - 1 pattern
DA-2	- directional day and night - 2 patterns
DA-N	- directional at night only
DA-D	- directional during the day only

WAAA-F programs a CHR format.

Next is the station's network affiliation if it has one:

ABC-C	ABC	Contemporary	APR	Associated Press Radio
ABC-D	ABC	Direction	CBS	CBS
ABC-I	ABC	Information	CBS-R	CBS Radio Radio
ABC-F	ABC	FM	MBS	Mutual
ABC-E	ABC	Entertainment	NBC	NBC
ABC-R	ABC	Rock	NBC-T	NBC Talk
ABC-T	ABC	Talk	Source	NBC Source
NBN	National Black		US 1	US 1
SBN	Sheridan		US 2	US 2
UPI	United Press International		WSJ	Wall Street Journal
Trans	Transtar		SMN	Satellite Music Network

NOTE: The name of the General Manager is listed in the Spring Report only.

The spot rate is now calculated in two different ways. For those stations which make their rate cards accessible, I based the rate on an 18 spot per week schedule with equal distribution throughout the primary dayparts. TAP plans were used only if the spots could be equally distributed.

If there is an asterisk next to the rate, it means that I had to estimate the station's rate. The rate listed is not the national rate but my estimate of the station's unit rate. The unit rate estimate is what I project is the average rate for all spots run on the station. The estimate is usually derived by taking the station's gross billings and working backwards with a formula based on spots per hour, the percentage of inventory sold, and other factors. Remember that these estimates are marked with an asterisk (*).

I believe that these estimates are generally quite close. However, I can not guarantee their accuracy.

Following the spot rate, the station's national representative can be found in parenthesis. Next is the group ownership, if there is any.

On the two page market reports four additional listings can be found directly below the capsule descriptions. They are:

- CALL LETTER CHANGES: The old calls and new calls for stations which have changed calls since the last issue of American Radio. The date of the change is listed if it is available.
- FORMAT CHANGES: This table should probably be called "major format changes". It is nearly impossible to track down every subtle change in format for every station. I hope to list the major changes at major stations since the previous edition of American Radio.
- STATION SALES: This section lists the proposed sales in each market. These sales do not necessarily close. If I know the brokers involved, they are also listed. In some cases I had to estimate the sale price.
- MISCELLANEOUS COMMENTS: These are various comments and observations which come to my mind as I process that data for each market.

NOTE: On other market reports which do not have two pages of data, this same information can be found under the heading of "Miscellaneous Comments".

1988 PUBLICATIONS FROM JIM DUNCAN

AMERICAN RADIO

Now a quarterly (plus the "Small Market" edition) AMERICAN RADIO remains the radio industry's most complete and timely sourcebook of radio ratings and programming information. There are over 30 tables and rankings for each market plus - in the Spring and Fall editions - over 60 pages of national rankings. AMERICAN RADIO is considered to be the "bible" of the radio industry and is required reading for anyone involved with radio.

DUNCAN'S RADIO MARKET GUIDE

Designed to be a companion volume to AMERICAN RADIO, this book examines the economic conditions of 170 markets. Included are: radio revenue histories and projections on a yearly basis between 1982 and 1992; revenue estimates for over 1,500 important stations; revenue estimates for competitive media (TV, newspaper, outdoor; Duncan's opinions about each market; population and retail sales histories and projections; group revenue estimates; radio's most admired groups and stations; local radio account information; revenue per share point estimates; station sales since 1983; and much, much more (over 30 other tables).

PUBLISHED EVERY DECEMBER

Price: \$225.00

AMERICAN RADIO - 10 YEAR ANNIVERSARY ISSUE

This very special issue was published in early 1987. Subtitled "A Prose and Statistical History (1976 to 1986)" it provides a history of each rated market covering the last decade. Included are station ratings for each year, station sales since 1970, format and call letter changes covering the last decade and much, much more. The prose portion is a series of articles written by 50 knowledgeable and talented radio people. These articles provide a history of radio covering the decade. This is the finest publication we have ever produced. You will find it helpful, valuable, and interesting.

THE RELATIONSHIP BETWEEN RADIO AUDIENCE SHARE AND REVENUE SHARES

This new report examines the relationship between a station's audience share and its revenue share. Over 600 stations are included. The revenue and audience shares for each individual station is included. Additional information is provided for each format and every market size. This report covers an area we have all speculated about but never had access to any reliable data. This report fills the gap. You will use it for programming decisions, budgeting and goal-setting. You will also find it makes fascinating reading.

INTRODUCTION

I am pleased to present the second edition of American Radio - Winter 1988 Supplement. This book is designed to supplement the primary editions of American Radio by providing updated summaries of the 76 markets which Arbitron and Birch survey on a quarterly basis.

The "Winter Supplement" is issued every May.

Your support of my work is sincerely appreciated. Please feel free to make comments or suggestions at any time. I urge you to do so. I can be reached at this address:

You will notice that we have begun to implement some major improvements to the format of American Radio. We have gone to a horizontal format with the stations ranked by I2+ 1/4 HR AVG, Broadcast Week. The TSA ranking and Metro Cume ranking have been dropped although the information is still available.

This new format allows us to add more data because we have more room. So we have added more Birch data (AQH and Cume) and beginning in the Spring edition we will add formats next to the station call letters and 25-54 conversion percentages. We may also add a percentage male calculation for each station.

AMERICAN RADIO

Now a quarterly (plus the "Small Market" edition) AMERICAN RADIO remains the radio industry's most complete and timely sourcebook of radio ratings and programming information. There are over 30 tables and rankings for each market plus - in the Spring and Fall editions - over 60 pages of national rankings. AMERICAN RADIO is considered to be the "bible" of the radio industry and is required reading for anyone involved with radio.

AMERICAN RADIO - 10 YEAR ANNIVERSARY ISSUE

This very special issue was published in early 1987. Subtitled "A Prose and Statistical History (1976 to 1986)" it provides a history of each rated market covering the last decade. Included are station ratings for each year, station sales since 1970, format and call letter changes covering the last decade and much, much more. The prose portion is a series of articles written by 50 knowledgeable and talented radio people. These articles provide a history of radio covering the decade. This is the finest publication we have ever produced. You will find it helpful, valuable, and interesting.

Price: \$50.00

THE RELATIONSHIP BETWEEN RADIO AUDIENCE SHARE AND REVENUE SHARES

This new report examines the relationship between a station's audience share and its revenue share. Over 800 stations are included. The revenue and audience shares for each individual station is included. Additional information is provided for each format and every market size. This report covers an area we have all speculated about but never had access to any reliable data. This report fills the gap. You will use it for programming decisions, budgeting and goal-setting. You will also find it makes fascinating reading.

PUBLISHED EVERY APRIL

Price: \$59.00

DUNCAN'S RADIO GROUP DIRECTORY

A brand new publication which will debut in September 1988 and then be issued annually. This book will be a complete and comprehensive directory of group radio owners in the U.S. All groups with four or more stations in rated markets and revenues in excess of \$2,000,000 will be included. Over 160 radio groups will be covered. The directory will include (for each group) ratings performance, station purchase prices (and date of purchase), station revenue estimates, senior management, addresses and phone numbers, group financial data, major shareholders, board of directors, key suppliers, a history of the company and much more.

HIGHLIGHTS AND COMMENTS

FM SHARE - THE FIRST DECLINE

For the first time since the 1960's the FM listening share actually declined in the Arbitron markets. This year's FM share was 71.376%. In the Spring of 1987 the share was 71.835%. The decline was 6/10 of one percent.

This was quite a shock especially considering that four or five years ago I predicted the FM share would grow to 75% to 80% of all listening before it leveled off.

I first checked with Arbitron to see if there were any methodological reasons for this event. Arbitron said no -- not to their knowledge. I then looked at formats to see if I could find any causes there. The only thing I could find was a sharp increase in listening to News/Talk stations. This increase might reflect interest in this year's active news. Also many of the baseball stations were higher than usual.

Whether these factors are enough to cause the decline in FM listening percentage is the question. I do not have an answer. We will have to wait a few more books so we can see a clear trend.

One other factor to consider. RADAR also tracks FM share. Until recently their figures were very close to Arbitron's -- usually less than a share difference. This is no longer the case. RADAR now shows the FM share at 75%.

Greenville-New Bern, NC had the highest FM share with 95.02%; Sioux Falls had the lowest with 50.74%.

SPRING 1988 ACHIEVEMENT AWARDS

			<u>HONORABLE MENTION</u>	
<u>GROUP:</u>	Brown Broadcasting		Legacy	
			Noble	
			Tichenor	
<u>MAJOR MARKET:</u>	WLUP A/F	Chicago	KXKL A/F	Denver
			WSNY-F	Columbus
<u>MEDIUM MARKET:</u>	KRQQ-F	Tucson		
<u>SMALL MARKET:</u>	KUZZ A/F	Bakersfield		
<u>VERY SMALL MARKET:</u>	WTAK	Huntsville	WKFR-F	Kalamazoo
			WXLP-F	Davenport

The achievement awards were begun in 1983. There is no formula for making these selections. The only requirement is that I think a group or station stands out because of its performance over the last year. There are no plaques or scrolls or anything like that. Just a "well done" and the fact that someone noticed an outstanding performance.

Sometimes a group with a limited portfolio of stations stands out amongst the large groups. Brown Broadcasting is such a group. Brown has been slowly developing a reputation as a well managed, well programmed radio group. This award reflects that growing reputation.

Brown has had fine properties in San Diego (KPOP, KGB-F) and Sacramento (KXOA A/F). In the last year or two they have succeeded in Salt Lake City (KKAT), a market where so many others have had trouble. In San Francisco Brown purchased KLOK-FM and junked that station's ratings successful format for a Jazz/AC/New Age format (KKSF) which many regard as the best station in that genre.

WLUP A/F in Chicago has become a giant in that market. The FM has been a great success in both ratings and revenue. It is now up to a 5.0 share and will probably bill over \$12,000,000 this year. However, this award is mostly based on the success of WLUP-AM. They took a big chance when they took Steve Dahl off the FM and put him on the AM band. The risk paid off and WLUP-AM is up to a 2.3 share.

KRQQ in Tucson, owned by Nationwide, has built up a huge share in their market -- over a 20 share in some books. This is particularly remarkable considering how crowded the Tucson market has become.

KUZZ-AM in Bakersfield has been a very successful country music station for many years. The station's owner, Buck Owens, also owned KKXX-FM in the same market. For the last few years KKXX has usually equalled, if not exceeded, KUZZ in the ratings. Additionally KKXX billed in excess of \$1,000,000 which is quite good in Bakersfield.

Earlier this year Owens blew up KKXX, changed the calls to KUZZ and is usually simulcasting with the AM. The new combined entity lost over 10 share points in the Spring Arbitrons. Their combined share is just about what KUZZ-AM had before the change.

A stupid move you say? Why do they get an achievement award you ask? With one exception I think it is a courageous move and smart positioning. Bakersfield has, until now, been a Mom and Pop type market. The more aggressive operators are bound to move in eventually and offer stronger competition to the Buck Owens properties. One obvious move would have been to compete with KUZZ from the FM band. Buck Owens' strategy solidified their country franchise. I would also believe that there is more revenue potential in the country format in this market than with CHR.

The exception, the move I think is unwise, is the simulcasting. I would have offered two different country formats. By simulcasting they insure and hasten the audience erosion of the AM.

Time will tell. This is a very interesting situation to watch.

WTAK in Huntsville, Alabama had the largest increase in its market this year. Their format is AOR. In fact, WTAK has the largest AQH of any AM AOR in the country. Quite an achievement. There is no FM AOR in Huntsville so WTAK has a position and is filling it well...at least until an FM decides it will program AOR.

WAYS-F	Macon	-10.0
WIOG-F	Saginaw	-9.5

FORMATS

Formats with the largest share increases (Spring 1988 vs. Spring 1987) were Jazz/New Age (+47.1%), Hispanic (+11.0%), and News/Talk (+9.2%). The largest decreases were in MOR/Variety (-17.5%), Nostalgia (-9.1%), and BTFL/EZ (-8.4%). CHR shows a declining level of listenership this year while AC/Soft Rock/Oldies continues to grow -- a growth fueled largely by Oldies.

The gain for News/Talk and the loss for MOR/Variety was partially caused by reclassifying WGN in Chicago from MOR to Talk.

LEADING STATIONS

Once again WHTZ-F in New York is the most-listened-to station in the U.S. (1/4 HOUR AVG). Stations in the top 100 making impressive gains include: KPWR, KABC, KLOS, WYNY, KTNQ, WEGX, WLUP-F, WCKG, KABL, WYSP, KVIL, WPEN, KMEL, WLIB, WMZQ, WJMK, KRBE, WZOU, WKLS, WYTZ, KQRS, WPRO-F.

CHANGES IN THIS EDITION OF AMERICAN RADIO

We have made some major improvements to the market reports in this edition of American Radio. Basically we changed from a vertical format to a horizontal format for the top section of each market report. We did this for several reasons. First of all, it allows us to cram in more data. Secondly, it is easier to read. Finally, it eliminates the ranking of stations based on their TSA performance.

The added data includes Birch AQH and Cume numbers, a 24-54 conversion factor and a format code for each station.

The 25-54 conversion factor is quite interesting. First, I have to warn you that this figure does not represent the percentage of the station's audience which is 25-54. Instead it represents a ratio (expressed in a percentage) between a station's 25-54 share and its 12+ share. See these examples:

	12+ Share	25-54 Share	25-54 Conversion
Station A	5.0	5.0	100
Station B	5.0	10.0	200
Station C	5.0	2.0	40
Station D	5.0	0	0

This figure indicates a station's ability to convert 12+ shares into 25-54 shares. Since the 25-54 cell is currently the most sought after demo by advertisers, this data is particularly relevant.

Per your many requests, we added a format code next to each station's calls and Metro AQH and share. Below is the legend for the format codes:

FORMAT CODES

CHR	- Contemporary Hit Radio, Top 40, Contemporary
AC	- Adult Contemporary
O	- Oldies (1955 to 1987)
B	- Black (audience predominantly Black -- over 75%)
U	- Urban (majority of audience is non-white although a relatively large segment is white)
EZ	- Easy Listening, Beautiful Music
AOR	- Album Oriented Rock, also includes Classic Rock
CL	- Classical
C	- Country
T	- Talk
N	- News
SP	- Hispanic/Spanish
BB	- Big Band, Nostalgia
M	- Middle-of-Road (MOR), Full Service, Variety
J/NA	- Jazz, New Age
R	- Religion, Christian, Christian Music
G	- Gospel
E	- Ethnic
??	- Others or Unknown

One other refinement can be found in the demo and daypart breakdowns. Arbitron does not allow us to print the actual shares in this section. Sometimes a ranker can be misleading because the difference between two stations can be wide or narrow but a simple ranker cannot show this. Thus we have come up with a secret code which lends utility to these tables. Below is a sample of the code:

1. KAAA< The < mark means that the share distance between the two stations is very small.
2. KBBB
1. KCCC
2. KDDD> The > mark shows that the distance between KDDD and KEEE is great -- 25% or more, generally.
3. KEEE
1. KFFF>> The >> mark means that there is a huge distance between the two stations with KFFF having about twice the audience (or more) of KGGG or that there is more than 10 share points separating the two stations.
2. KGGG

GROUP OWNERS

The following groups had "up" books for two-thirds or more of their stations (based on Spring 87 to Spring 88 comparisons, 12+ Metro Share):

Cox	Statewide	Sconnix	Wartstone & Dickstein
Booth/Genesis	Shamrock-Clark	Osborn	Rivers
Sun Group	Shamrock-Lynett	Newmarket	Sunshine
Tichenor	Keymarket	Regional	

Tichenor deserves particular praise because they had 8 stations with up books and one station which equalled its 1987 share. Not a single losing station in the company.

Capital Cities/ABC, CBS and Susquehanna all had 10 stations with positive books.

These groups showed major gains in the group rankings:

Cox	Noble	Edens	Tichenor
Legacy	Shamrock (Disney)	Century	Rivers
Booth/Genesis	Beasley	Henry	

The following groups had the most stations which are the 12+ Metro Share leaders in their markets:

Bloomington	4	(Johnson City, Chattanooga, Grand Rapids, Bloomington)
Capital Cities/ABC	4	(Detroit, Providence, Denver, San Francisco)
Clear Channel	4	(Beaumont, Tulsa, New Orleans, Louisville)
New City	4	(Bridgeport, Orlando, Syracuse, Birmingham)
Summit	4	(Springfield, MO; Lincoln; Dayton; Atlanta)
Booth/Genesis	3	(San Antonio, Toledo, Saginaw)
Great American	3	(Indianapolis, Kansas City, Portland)
Henry	3	(Fresno, Salinas-Monterrey, Riverside-San Bernardino)

QUOTE/UNQUOTE

It has been my responsibility to have a great deal of contact with the consumer press -- newspaper, magazines, etc. They call because I have a data base which is often useful to them. I probably average seven or eight press calls per week. Frankly the calls can be a pain and a distraction. However, I try to be helpful because I feel that often I can help the radio industry receive some favorable publicity.

In fourteen years I have been badly misquoted only twice. Both times were in our so-called magazine-of-record "Broadcasting." "Broadcasting's" coverage of the radio industry has been pathetic. When they do run something concerning radio, it is superficial and

Recently I was asked by the magazine for my comments concerning recent radio programming developments. When the discussion turned to Jazz/New Age I told the reporter that while a J/NA station has relatively low 12+ shares they will nearly double that share with their 25-54 share. I stressed this point several times because I could sense the reporter was not understanding the concept.

When the quote came out in print it said that I had said that Jazz/New Age stations double their share when they change into the format.

Well, I have learned my lesson and it will be a long time before I allow "Broadcasting" to use me as a source again. The Paducah Times understands radio concepts better than our "magazine-of-record."

A CLASS ACT

Chet Maxwell runs a company Metro Broadcast Monitor based in San Antonio. Chet's company monitors stations in several markets and issues reports concerning advertiser usage of radio on particular stations and for the market as a whole.

Maxwell made plans to move into the Seattle-Tacoma market with his service. He was just about ready to begin his reports when he learned that a severely handicapped woman was already offering a similar service to Seattle and radio broadcasters. Apparently, this was one of the few jobs this woman was capable of doing and Chet would have probably driven her out of business or at least harmed her business a great deal.

Chet Maxwell decided that he could not hurt this lady and he scrapped plans to move into Seattle.

A very classy thing to do.

**THE
JOHN
BAYLISS
BROADCAST
FOUNDATION**

INVEST IN RADIO'S FUTURE

THE FOUNDATION

The John Bayliss Broadcast Foundation was established by friends and colleagues in the radio industry to perpetuate the memory of John Bayliss, a leading broadcast executive, and his many contributions to the radio industry over a 30-year span. John Bayliss was introduced to radio while he served in the U.S. Air Force. After that he worked in a variety of increasingly responsible radio positions and established an enviable record of performance and profitability in radio management and sales. An innovative, problem-solving leader, John earned the Hall Radio Report nomination for Radio Executive of the Year and Group Executive of the Year in 1977 and 1978. The Foundation's purpose is the development of young talent for the radio industry, so that the broadcasting principles John stood for could live on in his name.

THE SCHOLARSHIP FUND

The scholarship fund helps finance the education of many college students who aspire to a career in radio broadcasting. Individual and corporate donations increase the Foundation's endowment so that outstanding young talent may be recognized and given every opportunity to succeed in the broadcasting field of their (and your) choice. In the past four years, 24 scholarships have been awarded to college juniors and seniors and an intern program has been established to allow a lucky student to gain "hands-on" training in a commercial environment.

In the four years since the Foundation was established by John Bayliss' industry friends and family, the Foundation has received its tax-exempt status; started scholarship programs at universities across the United States; initiated an intern program and held a "media-roast" fund-raiser, now an annual event, specifically to raise scholarship dollars. Please help us increase the endowment, and the scholarships the Foundation can award next year, by sending a generous donation today. Your investment will be seen, and heard, in tomorrow's radio broadcasts. The Foundation is supported solely by charitable contributions from industry leaders, who, like you, feel a responsibility to the future of radio.

Thank you for your support.

METRO SHARE LEADERS AND MAJOR SHARE CHANGES

This table shows the 12+ Metro Share (6AM-MID, Mon-Sun) leaders for each rated market. Also listed are the stations in each market which had the largest gain in share or loss in share.

The period covered for the share changes is Spring 1987 to Spring 1988. I am convinced that year-to-year comparisons are more accurate and valid than "last book" comparisons.

**** Based on 12+ Metro, 1/4 HR AVG, Broadcast Week. Calculated by dividing listening to non-listed stations by total listening to all radio stations. A large part of the non-listed listening is probably to public and non-commercial stations. Other listening to distant stations (clears). Other listening will be to local commercial stations which do not qualify for listing in the rating book. The importance of this table (and the table above) is that this is listening that is not going to local commercial outlets. This affects CPM's and the effectiveness of local radio.

RADIO REPS AND THEIR LEADING STATIONS

This section attempts to rank the radio representatives by the ratings success of the stations they carry on their lists. For each time a rep firm had a leading station in a market it received one point. The number of stations/ reps listed in each market depended on the market size. For markets one through ten, up to seven stations/ reps were listed. In 100+ markets, only one or two stations/ reps were listed.

The first table shows the number of stations a rep firm services which are among the leading facilities in its market. The second table shows the number of stations which the rep services which clearly rank number one in the ratings of its market.

I realize the limitations of a ranking like this. It penalizes reps which have small lists. It also doesn't cover reps which have the majority of their stations in unrated markets. It also ignores some stations which are very strong and very profitable (especially true in larger markets).

What this list does accomplish is that it indicates which rep firms have, to use a bridge term, the longest and strongest lists.

NOTE 1: Figures across the top of tables 1 and 2 are market rankings. The figure in parenthesis (on Table 1) is the maximum number of stations selected in that market size.

NOTE 2: Selections were generally based on 12+ Metro, 1/4 HR AVG, Broadcast Week. In a few cases TSA and Cume results were considered. In other cases combinations were considered. Some decisions were purely subjective on my part.

INDIVIDUAL STATION AUDIENCE BREAKDOWNS

In this section the audience composition of almost 800 stations is examined. This total equals nearly 10% of all commercial radio stations in the United States. The following information is included for each station:

TIME SPENT LISTENING (TSL): This figure shows the amount of time which an average listener spends with a given station. The total is given in hours instead of 1/4 hours.

This figure is derived by the following calculation: Average 1/4 HR audience times 504 (the number of quarter hours in the Broadcast Week). The resulting figure is divided by the weekly Metro Cume. This figure is divided by four to come up with a figure in hours.

TURN OVER RATIO (T/O RATIO): This figure roughly indicates the number of groups of people which contribute to the station's average audience. It is calculated by taking the Metro Cume (12+, Broadcast Week) and dividing it by the Metro 1/4 HR AVG (Broadcast Week).

PERCENT EXCLUSIVE CUME (% EXCL): This fascinating figure indicates the loyalty of a station's audience. It is calculated by dividing the exclusive cume (12+ Metro, Broadcast Week) by the Metro Cume (12+, Broadcast Week).

PERCENT 12-24, 25-54, 55+: As of Spring 1987, we have changed the ages covered in this breakdown. You may recall that in previous editions, the cells were Teens, 18-34, 18-49, and 50+. The changes were made for two reasons. First of all the new Arbitron rating books make it easier to calculate these cells. Secondly, I think the new cells better reflect those which readers are most interested.

This figure is simply the percentage of a station's total audience (12+ Metro AQH, Broadcast Week), which lies in these demographic cells.

PERCENT MALE/FEMALE (%M, %F): The methodology is the same as that for 12-24, 25-54, etc.

Below are the means by format. Also included is the number of stations sampled.

SECTION B

INDIVIDUAL MARKET REPORTS

NOTE: Following these definitions pages the Individual Market Reports can be found in alphabetical order.

DEFINITIONS, CLARIFICATIONS AND EXPLANATIONS

NOTE: Even long-time subscribers should read these pages very carefully. There have been numerous changes and additions to American Radio. It will greatly increase your understanding of the Individual Market Reports if you are familiar with the systems and methodologies used.

The best way to explain an Individual Market Report is to go through it section by section. We will use an imaginary market and will start with the top of the market report on the far left.

Arbitron Rank/Pop (12+): 49/512,000
MSA Rank/Pop: 44/601,000
ADI #50
Average Person Rating: 18.4
Market TSL: 24.5 hours

The Arbitron rank is the 12+ population of the Arbitron metro survey area. The rank number (49 in this case) is the ranking among the 270 Arbitron Standard radio markets.

The MSA (metropolitan Statistical Area) rank is shown along with the total estimated population. Where the market has been split into two or more MSA's all of the MSA's are listed.

The Arbitron ADI ranking can be found directly below the MSA rank.

The APR is the Average Person Rating. The APR indicates the percentage of the 12+ population which is using radio from 6 AM-Midnight, Mon-Sun (the Broadcast Week). The APR is roughly comparable to television's Persons Viewing Television (PVT) figures.

The market TSL shows the "Time Spent Listening" by the average radio listener in the market. In this case the average listener spends 24.5 hours listening to radio.

Stations: 27/20
Diaries: 701/730/53.5%
Sample Target: 647
% Below Line: 3.3
% Not Listed: 8.6

There were 27 stations listed in the rating book for this market. Of those 27 a total of 20 stations were listed above the line (home to Arbitron metro). Thus a total of seven stations were licensed to cities outside of the metro but they still qualified for inclusion in the rating book. You should be aware that some stations now appear above the line by virtue of its chosen home city of identification rather than by its FCC authorized city of license.

The information on the "Diaries" line is a bit complex but it is all very important:

1st figure: 701 - the number of usable (in-tab) diaries returned from the market's metro

2nd figure: 730 - in the metro there was one diary returned for every 730 people 12+

3rd figure: 53.5% - total returned (in-tab) diaries expressed as a percentage of the total individuals who were sent a diary

The sample target shows a number of in-tab diaries designated for the metro. This is basically Arbitron's goal for returned diaries. Remember that this number represents total diaries and does not necessarily refer to any individual demo. It is not a percentage of total people contacted. It is a percentage of total people sent diaries.

The % below line figure indicates the percentage of total radio listening earned by below the line stations.

This figure would reflect listening to distant stations, non-commercial and public stations, and local stations which did not have enough audience to qualify for listing in the book.

This figure along with the "% Below Line" figures indicate how much listening in the market is not available to the local commercial stations. This could have an effect on CPM's and also the effectiveness and salability of local radio.

Est. 1987 Revenue: \$14,500,000
HH Income: \$25,700
Retail \$: 3.5 Bil
Pop per Station: 25,600
#1 Biller: WAAA \$2,000,000

The revenue estimates are based upon calculations made in the 1988 edition of Duncan's Radio Market Guide. The figures are gross and they do not include trades.

HH Income means Consumer Spendable Income per household. This market's estimate is \$25,700.

Total retail sales in this market are estimated at 3.5 billion dollars.

The data comes from Sales & Marketing Management and they are dated 1 October 1987.

The population per Station shows the number of people (12+) per metro area radio station. The figure is calculated by dividing 12+ metro population by the number of "above-the-line" stations.

The #1 Biller shows the station I believe is the leading biller in the market and its estimated 1987 gross revenue. This data is extracted from the 1988 edition of Duncan's Radio Market Guide.

All of the figures in this section are based upon the Broadcast Week (Mon-Sun, 6A-MID). The audience figures are in hundreds. The ratings and shares are always percentages.

Next to the station's calls is a format code. The legend for this code is as follows:

- CHR - Contemporary Hit Radio, Top 40, Contemporary
- AC - Adult Contemporary
- O - Oldies (1955 to 1987)
- B - Black (audience predominantly Black -- over 75%)
- U - Urban (majority of audience is non-white although a large segment is white)
- EZ - Easy Listening, Beautiful Music
- AOR - Album Oriented Rock, also includes Classic Rock
- CL - Classical
- C - Country
- T - Talk
- N - News
- SP - Hispanic/Spanish
- BB - Big Band/Nostalgia
- M - Middle of the Road (MOR), Full Service, Variety
- J/NA - Jazz, New Age
- R - Religion, Christian, Christian Music
- G - Gospel
- E - Ethnic
- ?? - Others, Unknown

Then reading from left to right: WAAA has 51,300 listeners per quarter hour in the metro. This earns the station 10.0% share of audience during the latest rating period. Historical shares follow along with a four book average for those markets with quarterly measurement.

Next is the TSA 1/4 Hour Average and weekly cume. Then the Metro Cume and Cume Rating is shown. WAAA's cume rating is 20.4%. This means that 20.4% of this market's population (12+) listens to WAAA for five minutes or more during a given week. Historical cume ratings follow.

The 25-54 Conversion shows the ratio between each station's 25-54 share and its 12+ share. WAAA's 25-54 share is 133% of its 12+ share. This figure shows each station's ability to convert its total share (12+) into the shares of what is currently the most sought after demo.

Next is the latest Birch audience data for each station.

12+ FM SHARE (METRO): 76.96% (3732 of 4849) (SPG 87: 76.10%)

These figures show how well FM radio is doing in the market -- at least as far as listening levels are concerned. To calculate these figures I simply added up the Mon-Sun, 6A-MID, quarter hour numbers of all listed stations and divided it into the total numbers for the FM stations. There is, of course, listening to stations which do not qualify for a listing in the Arbitron report for the market. However, by definition this amount is small and it should not significantly affect the percentages.

DEMOGRAPHIC AND DAYPART RANKINGS

Directly below the FM Share figures are 21 demo and daypart rankings. The number of stations listed depends upon the size of the market. I am not allowed to print actual ratings figures per my agreement with Arbitron. All of these rankings are based on 1/4 HR AVG.

The criteria for the rankings is as follows:

TEENS: Ages 12-17, Mon-Sun, 6A-MID, Metro
 18-34: Adults 18-34, Mon-Sun, 6A-MID, Metro
 18-49: Adults 18-49, Mon-Sun, 6A-MID, Metro

 MEN 25-34: Men 25-34, Mon-Sun, 6A-MID, Metro
 MEN 25-54: Men 25-54, Mon-Sun, 6A-MID, Metro

NOTE: If a station's call letters are followed by a > symbol it means there is a very large difference between that station and the station following it in the ranking. The >> means that there is a huge difference between the marked station and the next ranked stations. The difference is around 10 share points or the marked station has twice as much audience. Conversely, the < symbol means that the two ranked stations were very close in share.

FORMATS	AM	FM	TOTAL	%	SPG 87 %
Country	153 (3)	176 (2)	329 (5)	13.9	14.1

This table is based on the broadcast week, 1/4 Hour Average, 12+ Metro. The table includes every format in the market and every station which shows up in the market's metro. In this market there are 15,300 people listening to 3 different AM stations programming country music. The FM figures are added to the AM to show a total for the market. 13.9% of radio listening in this market is devoted to stations programming country music.

The "Other Rated Stations" section includes all stations not listed on the 12+ METRO 1/4/SHARE column at the top of the individual market report. The city of license, 12+ metro share and 12+ cume rating is listed as well as the station's frequency.

CAPSULE STATION DESCRIPTIONS

WAAA-F, 92.5, 50 KW @ 500, CHR ABC-C, \$73.00 (Torbet) XYZ Group Thomas Duncan

I have greatly expanded the number of stations in each market which qualify for a capsule description. Now nearly every station in the metro is included.

Our sample station, WAAA-F, has a frequency of 92.5. Its power is 50 KW and its Height Above Average Terrain (HAAT) is 500 feet. It is unfortunate but true that some stations attempt to deceive advertisers about their power and HAAT. I think I have found the true facilities' data for these stations. However, a few may have slipped by me. If you see any incorrect figures, please let me know.

For AM stations, night power is listed if it differs from day power. Directionality is indicated as follows:

DA, DAYS	- directional daytimer
DA-1	- directional day and night - 1 pattern
DA-2	- directional day and night - 2 patterns
DA-N	- directional at night only
DA-D	- directional during the day only

WAAA-F programs a CHR format.

Next is the station's network affiliation if it has one:

ABC-C	ABC	Contemporary	APR	Associated Press Radio
ABC-D	ABC	Direction	CBS	CBS
ABC-I	ABC	Information	CBS-R	CBS Radio Radio
ABC-F	ABC	FM	MBS	Mutual
ABC-E	ABC	Entertainment	NBC	NBC
ABC-R	ABC	Rock	NBC-T	NBC Talk
ABC-T	ABC	Talk	Source	NBC Source
NBW	National Black		US . 1	US . 1
SBW	Sheridan		US . 2	US . 2
UPI	United Press International		WSJ	Wall Street Journal
Trans	Transtar		SMN	Satellite Music Network

Spot rates are now calculated in just one way: my estimate of each station's average unit rate. The unit rate estimate is what I project is the average rate for all spots run on the station. This estimate is usually derived by taking the station's gross billings and working backwards with a formula based on spots per hour, the percentage of inventory sold and other factors.

Following the spot rate, the station's national representative can be found in the parenthesis. Next is the group ownership if there is any. Finally, in the Spring edition only, the name of the station's general manager.

On the two page market reports, four additional listings can be found directly below the capsule descriptions. They are:

CALL LETTER CHANGES: The old calls and new calls for stations which have changed calls since the last issue of American Radio. The date of the change is listed if it is available.

FORMAT CHANGES: This table should probably be called "major format changes." It is nearly impossible to track down every subtle change in format for every station. I hope to list the major changes at major stations since the previous edition of American Radio.

STATION SALES: This section lists the proposed sales in each market. These sales do not necessarily close. If I know the brokers involved, they are also listed. In some cases I had to estimate the sale price.

MISCELLANEOUS COMMENTS: These are various comments and observations which come to my mind as I process the data for each market.

NOTE: On other market reports which do not have two pages of data, this same information can be found under the heading of "Miscellaneous Comments."

MISCELLANEOUS COMMENTS KKKX-F changes calls to KUZZ-F and format from CHR to Country (March)... KLYD-F changes calls to KKBB-F (March)... KAMH-F picks up KKKX-F calls and CHR format... Courageous move by Buck Owens to drop successful CHR format and protect its country franchise... I question whether simulcasting is a good idea... I would have kept the AM as a full-service station playing country music and then made the FM music intensive...

1988 PUBLICATIONS FROM JIM DUNCAN

AMERICAN RADIO

Now a quarterly (plus the "Small Market" edition) AMERICAN RADIO remains the radio industry's most complete and timely sourcebook of radio ratings and programming information. There are over 30 tables and rankings for each market plus - in the Spring and Fall editions - over 60 pages of national rankings. AMERICAN RADIO is considered to be the "bible" of the radio industry and is required reading for anyone involved with radio.

DUNCAN'S RADIO MARKET GUIDE

Designed to be a companion volume to AMERICAN RADIO, this book examines the economic conditions of 170 markets. Included are: radio revenue histories and projections on a yearly basis between 1981 and 1991; revenue estimates for over 1,500 important stations; revenue estimates for competitive media (TV, newspaper, outdoor; Duncan's opinions about each market; population and retail sales histories and projections; group revenue estimates; radio's most admired groups and stations; local radio account information; revenue per share point estimates; station sales since 1982; and much, much more (over 30 other tables).

PUBLISHED EVERY DECEMBER

Price: \$225.00

AMERICAN RADIO - 10 YEAR ANNIVERSARY ISSUE

This very special issue was published in early 1987. Subtitled "A Prose and Statistical History (1976 to 1986)" it provides a history of each rated market covering the last decade. Included are station ratings for each year, station sales since 1970, format and call letter changes covering the last decade and much, much more. The prose portion is a series of articles written by 50 knowledgeable and talented radio people. These articles provide a history of radio covering the decade. This is the finest publication we have ever produced. You will find it helpful, valuable, and interesting.

Price: \$50.00

THE RELATIONSHIP BETWEEN RADIO AUDIENCE SHARE AND REVENUE SHARES

This new report examines the relationship between a station's audience share and its revenue share. Over 800 stations are included. The revenue and audience shares for each individual station is included. Additional information is provided for each format and every market size. This report covers an area we have all speculated about but never had access to any reliable data. This report fills the gap. You will use it for programming decisions, budgeting and goal-setting. You will also find it makes fascinating reading.

PUBLISHED EVERY APRIL

Price: \$59.00

DUNCAN'S RADIO GROUP DIRECTORY

A brand new publication which will debut in September 1988 and then be issued annually. This book will be a complete and comprehensive directory of group radio owners in the U.S. All groups with four or more stations in rated markets and revenues in excess of \$2,000,000 will be included. Over 160 radio groups will be covered. The directory will include (for each group) ratings performance, station purchase prices (and date of purchase), station revenue estimates, senior management, addresses and phone numbers, group financial data, major shareholders, board of directors, key suppliers, a history of the company and much more.

PUBLISHED IN SEPTEMBER

ARBITRON CONDENSED RADIO MARKET REPORTS

Arbitron's Condensed reports differ greatly from the standard market reports. Much of the data available in the standard book is not available in the Condensed. However, we have made do with what data is available.

The data for each station is read from left to right across the entire page. The methodology is the same as in the regular edition of American Radio.

DUNCAN'S RADIO MARKET GUIDE

Designed to be a companion volume to AMERICAN RADIO, this book examines the economic conditions of 170 markets. Included are: radio revenue histories and projections on a yearly basis between 1981 and 1991; revenue estimates for over 1,500 important stations; revenue estimates for competitive media (TV, newspaper, outdoor); Duncan's opinions about each market; population and retail sales histories and projections; group revenue estimates; radio's most admired groups and stations; local radio account information; revenue per share point estimates; station sales since 1982; and much, much more (over 30 other tables).

PUBLISHED EVERY DECEMBER

Price: \$225.00

AMERICAN RADIO - 10 YEAR ANNIVERSARY ISSUE

This very special issue was published in early 1987. Subtitled "A Prose and Statistical History (1976 to 1986)" it provides a history of each rated market covering the last decade. Included are station ratings for each year, station sales since 1970, format and call letter changes covering the last decade and much, much more. The prose portion is a series of articles written by 50 knowledgeable and talented radio people. These articles provide a history of radio covering the decade. This is the finest publication we have ever produced. You will find it helpful, valuable, and interesting.

Price: \$50.00

THE RELATIONSHIP BETWEEN RADIO AUDIENCE SHARE AND REVENUE SHARES

This new report examines the relationship between a station's audience share and its revenue share. Over 800 stations are included. The revenue and audience shares for each individual station is included. Additional information is provided for each format and every market size. This report covers an area we have all speculated about but never had access to any reliable data. This report fills the gap. You will use it for programming decisions, budgeting and goal-setting. You will also find it makes fascinating reading.

PUBLISHED EVERY APRIL

Price: \$59.00

DUNCAN'S RADIO GROUP DIRECTORY

A brand new publication which will debut in September 1988 and then be issued annually. This book will be a complete and comprehensive directory of group radio owners in the U.S. All groups with four or more stations in rated markets and revenues in excess of \$2,000,000 will be included. Over 160 radio groups will be covered. The directory will include (for each group) ratings performance, station purchase prices (and date of purchase), station revenue estimates, senior management, addresses and phone numbers, group financial data, major shareholders, board of directors, key suppliers, a history of the company and much more.

PUBLISHED IN SEPTEMBER

Price: \$95.00
